[Laptop Screen Too Dark At Full Brightness](#)

When you're in a dark room, you'll want it dim so it doesn't hurt your eyes.. You probably need to change your screen brightness regularly When it's bright outside, you want to turn it up so you can see.. Windows can change it based on whether you're plugged in, based on how much battery power you have left, or using an ambient light sensor built into many modern devices.
